Polar Bears
in the Arctic

Characters

Peg
Datiz

Written by Yein Suh
Photographs by Peg & Datiz. Student Conservationists
Illustrations by George Carrara
The polar bear sits.
The polar bear digs.

The polar bear gets wet.
The polar bear nips his pal.
In the Arctic.

Peg and Datiz tell kids about polar bears.

Map of the Arctic Circle
Arctic Circle Facts

- Polar bears have black skin underneath their white fur.
- The Arctic Ocean is the smallest ocean in the world.
- Large blocks of ice floating in the water getting wet.
- In the summer the ice sheet melts, creating
- North America to Asia across the ice without thick ice covering it, a person could walk from
- In the winter the Arctic Ocean has a sheet of
  - The lowest temperature recorded in the Arctic is about -90°F (-68°C).
  - The name, Arctic, comes from the Greek word that means near the bear.
